

It defines the purpose of a company or organization

Select one:

- a. Goal Planning
- b. Organization Plan
- c. Strategic Plan
- d. None of the choices

SWOT Analysis is Strategic as is.

Select one:

- a. Not Always
- b. False
- c. True
- d. Maybe

Check

They are the objective functions a company is trying to achieve

Select one:

- a. Goal Filter
- b. Strategic Filter
- c. Initiative Filter
- d. None of the choices

He Developed Porter's Five Forces

Select one:

- a. Dr. Harry Porter
- b. Dr. Michael Porter
- c. Dr. Michelle Porter
- d. Dr. Mike Porter

It's the first question in Porter's Five Forces

Select one:

- a. How many suppliers are there?

- b. How many customers are there?
- c. How many competitor's are there?
- d. None of the choices

Check

It's a tool used to assess the environment using specific tasks and well defined questions aside from Porter's Five Forces and is typically drawn on a grid

Select one:

- a. WOT
- b. SWAT
- c. SWOT
- d. WAT

These are typically found within your organization that refers to your competitive power and your ability to survive in the market

Select one:

- a. Opportunities
- b. Strength
- c. Threats
- d. Weakness

Refers to the area where the company is lacking in

Select one:

- a. Strength
- b. Weakness
- c. Threats
- d. Opportunities

Refers to events or phenomena that might prove beneficial to the company

Select one:

- a. Threats
- b. Weakness
- c. Strength
- d. Opportunities

Refers to possible cause of the downfall of the company, Liabilities

Select one:

- a. Opportunities
- b. Weakness
- c. Threats
- d. Strength

Check

QUIZ 2

It's a strategy that is limited in terms of variety but excels in terms of speed of delivery

Select one:

- a. Make Stock Strategy
- b. Assembly Strategy
- c. Mass Production Strategy
- d. Make to Order Strategy

They develop manufacturing experience be it material or immaterial

Select one:

- a. None of the choices
- b. Manufacturing Facilities
- c. Mass Production Factory
- d. Specialty Store

It's a strategy that sits between make to order and make stock strategy

Select one:

- a. None of the choices
- b. Assemble to order strategy
- c. Stock Order Strategy
- d. Combination Strategy

Check

It focuses on making a standardized product with consistent quality, in high volumes at fast production rate

Select one:

- a. L-Layout
- b. Line flow layout
- c. Conveyor layout
- d. Flexible flow layout

Check

Provides flexibility, high level of quality but with minimal effort required to move around

Select one:

- a. L-Layout
- b. Conveyor layout
- c. Flexible flow layout
- d. Assemble to Order layout

Refers to factors that reduce productivity or efficiency of a company or system by reducing the speed of production

Select one:

- a. None of the choices
- b. Liability
- c. Bottleneck
- d. Chain

It seeks to make things well, make them quickly and with minimal resources

Select one:

- a. Production Process
- b. Overall Management Practice
- c. Quality Assurance
- d. Quality of Service

It is the quotient of production time divided by demand

Select one:

- a. Production Deficiency
- b. Supply
- c. Cycle time
- d. None of the choices

It is a facility that produces only one kind of very specialized product or service

Select one:

- a. Focused Factory
- b. Expertise Factory
- c. Monopolistic Factory
- d. Specialized Factory

It is a facility that produces only one kind of very specialized product or service

Select one:

- a. Focused Factory
- b. Expertise Factory
- c. Monopolistic Factory
- d. Specialized Factory

QUIZ 1

It is the Management of the systems that produce products and services

Select one:

- a. Operations

- b. Planning
- c. Blueprint
- d. Software Management

It relies on historical numeric data to predict what will happen in the future

Select one:

- a. Quantitative Hypothesis
- b. Hunching
- c. Quantitative Forecasting
- d. Prediction

Which of the following is not a characteristic that companies are competing for

Select one:

- a. Quality
- b. Speed
- c. Colour
- d. Cost

Check

These are also known as assets, anything that someone or a company owns

Select one:

- a. Valuables
- b. Properties
- c. None of the choices
- d. Inventory

These are also known as assets, anything that someone or a company owns

Select one:

- a. Valuables
- b. Properties
- c. None of the choices

- d. Inventory

It's the order size that will provide with the lowest total inventory cost

Select one:

- a. EOQ
- b. TMI
- c. ECQ
- d. ECG

Check

Inventory storage is free

Select one:

- a. False
- b. Not Sure
- c. True
- d. Maybe

Smaller shipments = lower shipment per unit fee

Select one:

- a. Maybe
- b. True
- c. False
- d. Not Sure

It is the quantity of items or services required by consumers

Select one:

- a. Ration
- b. Supply
- c. Demand
- d. None of the choices

Check

It is the amount of items or services tendered by producers

Select one:

- a. None of the choices
- b. Ration
- c. Supply
- d. Demand

QUIZ 4

It is the reason why an organization exists.

Select one:

- a. Vision
- b. Dream
- c. Guiding Principles
- d. Mission

Check

The process of creating a hierarchical sense between objectives, initiative or sense

Select one:

- a. Prioritization
- b. Listing
- c. Strategic Planning
- d. None of the choices

These are rules that should be lived by members of an organization

Select one:

- a. Vision
- b. Dream
- c. Mission
- d. Guiding Principles

Check

These are rules that should be lived by members of an organization

Select one:

- a. Vision
- b. Dream
- c. Mission
- d. Guiding Principles

Check

A type of strategic filter that weighs different numerical values' value for the company

Select one:

- a. Numerical Filter
- b. Number Filter
- c. None of the choices
- d. Quantitative Filter

A type of strategic filter that weighs different numerical values' value for the company

Select one:

- a. Numerical Filter
- b. Number Filter
- c. None of the choices
- d. Quantitative Filter

A type of strategic filter that weighs different numerical values' value for the company

Select one:

- a. Numerical Filter
- b. Number Filter
- c. None of the choices
- d. Quantitative Filter

It is one of the most important aspects of a good strategic planning

Select one:

- a. Money
- b. Strategy
- c. Initiatives
- d. Prioritization

Check

It is an organization's way of setting a priority

Select one:

- a. Focus
- b. None of the choices
- c. Milestones
- d. Initiatives

It is an organization's way of setting a priority

Select one:

- a. Focus
- b. None of the choices
- c. Milestones
- d. Initiatives

QUIZ 5

It is the identification, storage, retrieval and destruction of documents important to you and the business

Select one:

- a. Document Retention
- b. Document Filtering
- c. Document Resizing

- d. Document Shredding

Check

It was designed to allow access to vast amounts of information on multiple different topics

Select one:

- a. DDS
- b. None of the choices
- c. MPC
- d. YFC

Check

It tells parties what they are and the obligations they have to the partnership

Select one:

- a. Reports
- b. Memorandum
- c. Contracts
- d. Shareholdings

It helps you measure your progress, preserve your intellectual properties etc.

Select one:

- a. Contracts
- b. Memorandum
- c. Reports
- d. Documents

Set of rules that helps you to create a historical record of your company

Select one:

- a. Memorandums
- b. Document Filters
- c. Document Retention Policy
- d. Document Shredding Policy

It's the lifeline of a company. It allows the company to adapt to situations, predict and make necessary decisions.

Select one:

- a. Documents
- b. Information
- c. Bribe
- d. Memos

Information passed without any written evidence are invalid

Select one:

- a. False
- b. True
- c. Maybe
- d. Not Sure

These are the earliest form of document retention

Select one:

- a. Clay Tablet
- b. Stone Friezes
- c. Paper
- d. Emails

They utilized Clay Tablets to record events

Select one:

- a. Celtics
- b. Egyptians
- c. Mayans
- d. Israelis

Digital CDs are a form of Document Retention

Select one:

- a. False
- b. Not Always
- c. True
- d. Not sure

QUIZ 6

Database Management System is the program or the set of programs that surround and manage a database to make sure your rules are applied.

Select one:

- True
- False

UPDATE is the query for changing information in a database.

Select one:

- True
- False

Check

Database is the data and your rules about that data.

Select one:

- True
- False

Table is the most basic and most fundamental building block of a database.

Select one:

- True
- False

Check

Unique Key is a way to identify just one particular row in any table.

Select one:

True

False

Check

Structured Query Language is the common language that lies at the heart of every relational database management system and it is considered as declarative query language.

Select one:

True

False

Database Schema is the formal description of our database.

Select one:

True

False

Size, Ease of updating, Accuracy, Security, Redundancy and Importance are the six potential problems related to Data.

Select one:

True

False

SELECT is the query for reading information from one of the tables in one of our databases.

Select one:

True

False

INSERT is the query for creating/inserting a new row of data into a particular table.

Select one:

- True
- False

Check

QUIZ 7

What does SSIS mean?

Select one:

- a. SQL Server improvement service
- b. SQL Services Improvement Selection
- c. SQL Server Importing Service
- d. SQL Server Integration Services

What does EDW mean?

Select one:

- a. External Data Warehouse
- b. Efficient Data Warehouse
- c. Economic Data Warehouse
- d. Enterprise Data warehouse

The duration of the evaluation period

Select one:

- a. 15 days
- b. 90 days
- c. 30 days
- d. 180 days

During installation, a primary test is run to check whether the device can run SQL Server 2012

Select one:

- a. False
- b. True

Check

It allows the SQL Server to be able to communicate to Sharepoint

Select one:

- a. SQL Server PowerPivot for Sharepoint
- b. SQL Server Sharepoint Manager
- c. SQL Server Sharepoint Access
- d. SQL Server Sharepoint Client

By default, this is the more secure method of authentication.

Select one:

- a. Mixed mode
- b. Microsoft Outlook Login mode
- c. Windows Authentication
- d. Online Authentication

Check

Which of the following are the available modes for Analysis Services

Select one:

- a. Multi-Dimensional and Data Mining Mode, Tabular Mode
- b. List mode
- c. Slideshow view mode
- d. Worksheet Mode

The file extension name / file type of Database files is

Select one:

- a. SWF

- b. MDF
- c. SSD
- d. SAV

Which of the following is not a characteristic of a Data Warehouse

Select one:

- a. New data are loaded periodically
- b. Integrates from other sources
- c. Small
- d. Existing Data Does not Change

Check

Which of the following is not a characteristic of a Data Warehouse

Select one:

- a. New data are loaded periodically
- b. Integrates from other sources
- c. Small
- d. Existing Data Does not Change

Check

QUIZ 8

Data Warehousing needs at least _____ of bandwidth to support its day to day processes

Select one:

- a. 15 megabits
- b. 1 gigabit
- c. 512 kilobits
- d. 1 terabit

What does ETL mean?

Select one:

- a. Extract-Transfer-Load
- b. Extract-Transparent-Load
- c. Export-Transport-Load
- d. Extract-Transform-Load

Data Warehousing needs at least _____ of bandwidth to support its day to day processes

Select one:

- a. 15 megabits
- b. 1 gigabit
- c. 1 terabit
- d. 512 kilobits

It's a process that stores bits of memory in a local storage to avoid re-loading of redundant actions.

Select one:

- a. Mirroring
- b. Reloading
- c. Saving
- d. Caching

Check

It helps us to determine the hardware needs of a particular data warehouse

Select one:

- a. FDTW
- b. WDTF
- c. WFTD
- d. FTDW

What does FTDW

Select one:

- a. Fast Track Data Warehouse Sizing Tool
- b. Fast Trace Deletion Worker
- c. Fast Track Deletion Warehouse
- d. Few Trace Detection Warehousing

Refers to data sets so large that a new tool or technique is required to analyze it

Select one:

- a. Big Data
- b. Encrypted Data
- c. Mega Data
- d. Large Data

It is currently the size of the biggest "Big Data" as of now

Select one:

- a. 90 petabytes
- b. 10 Terabytes
- c. 100 Gigabytes
- d. 999 Nanobytes

It's the company that help the biggest "Big Data" warehouse

Select one:

- a. eBay
- b. Amazon
- c. Sulit
- d. Google

It is often importing data from an external entity, in other words data we have a little or no control over.

Select one:

- a. SSMS

- b. ETL
- c. None of the choices
- d. SSIS

QUIZ 9

This refers to the data that because of its size, speed and format (its volume, velocity or variety) cannot be stored easily, manipulated or analyzed with traditional methods

Select one:

- a. Program
- b. Language
- c. Database
- d. Big Data

Who develops the Data Science Venn Diagram in 2010?

Select one:

- a. John Venn
- b. None of the Choices
- c. Charles Babbage
- d. Drew Conway

Check

Which of the following is not part of the 3 V that describes Big Data?

Select one:

- a. Variety
- b. Volume
- c. Velocity
- d. Variable

How many rows and columns are there in an MS Excel 2007 version?

Select one:

- a. 65,536 rows by 256 columns

- b. 100,256 rows by 5,356 columns
- c. None of the Choices
- d. 1,048,576 rows by 16, 384 columns

Check

This are data that has four measurement; width, length, petals and sepals of the 3 species of IRIS.

Select one:

- a. Firehose Data
- b. Iris Data
- c. Super Data
- d. None of the Choices

Which of the following is not a NoSQL Database?

Select one:

- a. HADOP
- b. Column Family
- c. Graph
- d. Key Value

Check

This term is usually referred to as data that describes itself in an important way.

Select one:

- a. Longevity
- b. None of the Choices
- c. Reproducibility
- d. Introspection

Which of the following is an example of Big Data for Consumer?

Select one:

- a. Google Ad Search
- b. None of the Choices
- c. Siri

- d. Predictive Marketing

Which of the following is an example of Big Data for Business?

Select one:

- a. Siri
- b. Predict Trends (Editd)
- c. None of the Choices
- d. Neighborland

Check

Which of the following is not an example of Big Data for Research?

Select one:

- a. NASA Kepler Space Telescope
- b. Fraud Detection
- c. Google Flu Trends
- d. Brain Initiative

QUIZ 10

It is defined as the methodology to utilize data be it external or internal.

Select one:

- a. Business Intelligence
- b. Data Mining
- c. Algorithm
- d. Data Encapsulation

Check

The platform used for Business Intelligence

Select one:

- a. Microsoft Excel

- b. SQL Server Management Studio
- c. NaviCat
- d. Oracle Server

Check

This is the first term used to refer to the modern Business Intelligence

Select one:

- a. SSMS
- b. None of the choices
- c. OLAP
- d. IntelliSense

Check

It is normally an individual or a small team that is making the exploration of the data.

Select one:

- a. Complex Business Intelligence
- b. Personal Business Intelligence
- c. Team Business Intelligence
- d. Managerial Business Intelligence

Check

It can be either the sharing of the data that we describe in Personal Business Intelligence via SharePoint with an entire team or division, or it can be creating a subset of data that lives in the data warehouse for analysis.

Select one:

- a. Team Business Intelligence
- b. Managerial Business Intelligence
- c. Complex Business Intelligence
- d. Personal Business Intelligence

It is the well-documented, traditional path that has been with us for decades and is in its sixth or seventh generation.

Select one:

- a. Managerial Business Intelligence
- b. Personal Business Intelligence
- c. Enterprise Data Intelligence
- d. Complex Business Intelligence

Which of the following is the most expensive type of BI

Select one:

- a. None of the choices
- b. Enterprise Data Intelligence
- c. Personal Business Intelligence
- d. Team Business Intelligence

Check

It allowed us to move off of the standard tabular view. It allows us to create, with a few simple clicks, 3D animated maps showing our data, interactive graphics that allows us to drill down and drill up in such things as a hierarchy of sales products.

Select one:

- a. Graph Tool
- b. None of the choices
- c. Data Visualization Tools
- d. Charting Tools

It's a data finding method that groups data with similarities before sifting through them with different filters

Select one:

- a. Data Isolation Method
- b. Cluster Method
- c. None of the choices

- d. Data Mining

It refers to a group of data that has similarities in any form

Select one:

- a. None of the choices
- b. Cluster
- c. Data Attraction
- d. Data Mine

Check

QUIZ 11

He is the author of Computing on Analytics that popularized the word analytics

Select one:

- a. Thomas Davenport
- b. George RR Martin
- c. Stephen King
- d. J.R.R Tolkien

These are step by step process in solving a specific problem, creating a software etc.

Select one:

- a. Cheat sheet
- b. Walkthrough
- c. Algorithm
- d. Blueprint

Tool used to make better informed decisions

Select one:

- a. Analytics
- b. None of the choices

- c. Survey
- d. Business Intelligence

Check

The benefits of analytics can be compared through the comparison of ___ and ____

Select one:

- a. Human Power and Raw Materials
- b. None of the choices
- c. Resources and Effort
- d. Cost and benefits

Unreliable data that often comes with a signal data.

Select one:

- a. Raw Data
- b. Information
- c. Noise
- d. Farce

Check

It is the first factor that increases the importance of analytics

Select one:

- a. None of the choices
- b. The internet is being used more than ever
- c. There is more data available
- d. Humans need information

Algorithm and technology are what they used to be several years ago.

Select one:

- a. False
- b. True

Check

Type of Analytics that aims to provide a clear and calculated forecast of future events.

Select one:

- a. Predictive Analytics
- b. Public Sector Analytics
- c. Prescriptive Analytics
- d. Supply Chain Analytics

These are data that are grouped together because they have something in common.

Select one:

- a. Data set
- b. Datamart
- c. Database
- d. None of the choices

Phones nowadays are being powered by android, therefore their processing power allows them to have computer like capabilities such as analysis, computing etc

Select one:

- a. True
- b. False

Check

QUIZ 12

These are based on a very robust workflow in which data is acquired and processed.

Select one:

- a. ETL
- b. Prescriptive Analytics
- c. Predictive Analytics
- d. Zone Filtering

The tools _____ and _____ showed up in 1960s and has been used for analytics since then.

Select one:

- a. RAD and DOS
- b. SAS and SPSS
- c. ETL and SAP
- d. None of the choices

Check

What does MIS mean?

Select one:

- a. None of the choices
- b. Management Information Service
- c. Managerial Inclusive Service
- d. Management Information System

Check

It is the year when BI dominated the analytics space.

Select one:

- a. 1991
- b. 1961
- c. 1990
- d. 1890

Check

It is the ultimate goal of any Analytics

Select one:

- a. To gather insights driven by data
- b. None of the above
- c. To gather viable data for comparison
- d. To predict the future and make money

Check

Insights from the past are ultimately disregarded

Select one:

- a. False
- b. True

It is a framework that carries our data all the way through from the first moments it makes its way into our systems,

Select one:

- a. None of the choices
- b. DOTnet framework
- c. Prescriptive Analytics
- d. Algorithm

Organizations use external applications and internal data sources to create their data warehouse

Select one:

- a. True
- b. False

They are typically limited to structured data and they deal in cold hard facts rather than hypotheses.

Select one:

- a. Data warehouse
- b. Data Mart
- c. Data Mine
- d. Database

It is a term that almost became synonymous with the term analytics

Select one:

- a. Data Warehousing
- b. Database

- c. Data Mart
- d. Data Mining

QUIZ 13

It is a critically important aspect to prescriptive analytics workflow, and you can think of it as the earliest possible detection of something of potential importance to us.

Select one:

- a. Event
- b. Filter
- c. None of the choices
- d. Storage

They are the hands-on modelers and the statisticians, and very often, they may also be subject matter experts or SMEs in a particular part of the business.

Select one:

- a. Analytics Specialist
- b. Data Scientists
- c. Data Operator
- d. Data Managers

Check

Which of the following is not a step in Prescriptive Analysis

Select one:

- a. Assimilate Feedbacks
- b. Apply Analytics Model
- c. Detect Events
- d. Form Hypotheses

Which of the following is not an Event Trigger

Select one:

- a. Signal

- b. New piece of data
- c. Business Occurrence
- d. Catastrophic Event

It means that the event itself triggers some sort of an action in the analytics workflow.

Select one:

- a. Synthesized Event
- b. Discrete Event
- c. Strategic
- d. Operational

This event in combination with other events triggers action

Select one:

- a. Synthesized Event
- b. Discrete Event
- c. Operational
- d. Strategic

This event by definition means that the data itself triggers the events.

Select one:

- a. Operational
- b. Strategic
- c. Discrete Event
- d. Data-Driven Event

Check

This event is typically tied to operational business processes

Select one:

- a. Data-Driven Event
- b. Strategic Event

- c. Operational Event
- d. Discrete Event

This event is usually related to market planning, product lineup.

Select one:

- a. Operational Event
- b. Data-Driven Event
- c. Strategic Event
- d. Discrete Event

Check

They're the ones who use their expertise to help decide which analytical model should be built,

Select one:

- a. Data Analysts
- b. Data Operator
- c. Data Managers
- d. Data Scientists

QUIZ 15

Every when does Microsoft releases patches and updates for windows?

Select one:

- a. Every 15th of the Month
- b. Every 1st Monday of the Month
- c. Every 2nd Tuesday of the Month
- d. Every 30th of the Month

Check

What is the most effective security in wireless?

Select one:

- a. TKIP

- b. WEP
- c. WPA2-AES
- d. None of the Choices

Check

Which of the following is not a Password-Management Software?

Select one:

- a. Last Pass
- b. EFS
- c. Keeper Password
- d. One Password

It is an email wherein it try to get or bait useful information about you.

Select one:

- a. Phishing
- b. Cracking
- c. None of the Choices
- d. Hacking

It is a website that is known in Url Shortening.

Select one:

- a. Long URL
- b. None of the Choices
- c. Bit.Ly
- d. Google.com

Check

What is the sign that the website you are visiting is a secure website?

Select one:

- a. If the website has suspicious looks like when you hover the submit button or login button it shows you a suspicious link.
- b. If the website is in shorten URL and redirects you to a web page

- c. If it has the padlock in its URL and currently in the form of HTTPS
- d. None of the Choices

It is a part of sentence in a website or web page that carries a hidden hyperlink pointing to a different webpage or website.

Select one:

- a. Bit.Ly
- b. None of the Choices
- c. Long URL
- d. Text Link

Check

What do you call the patches and bug fixes that windows sends to its users?

Select one:

- a. Windows Update
- b. Windows Patch
- c. None of the Choices
- d. Windows Live

Which of the following is not included in the Windows Update?

Select one:

- a. Operating System Bug Fixes
- b. None of the Choices
- c. Patches for Security Holes
- d. Virus Definition

This are software designed to constantly scan files that you download, open and access.

Select one:

- a. Firewall

- b. App Store
- c. None of the Choices
- d. Antivirus

It is a software or hardware that serves as boundary to keep the dangerous things outside while scanning all the data that coming into your router from the internet.

Select one:

- a. Firewall
- b. Antivirus
- c. None of the Choices
- d. App Store

How to Lock your Mac Computer?

Select one:

- a. Hold the Control Key plus Letter "L"
- b. Hold the Control Key Plus Alt Key plus Delete Key
- c. Hold the Control Key plus Power Key
- d. Hold the Control Key plus Shift Key plus Power Key

Check

How to Lock your Windows Computer?

Select one:

- a. Hold the Windows Key plus Letter "L"
- b. Hold the Alt Key plus Delete Key
- c. Hold the Windows Key Plus Delete Key
- d. Hold the Windows Key plus the Shift Key plus the Power Key

EFS stands for?

Select one:

- a. Enterprise File Services
- b. Effective Field Size

- c. Electronic Form System
- d. Encrypting File System

SSID stands for?

Select one:

- a. Statewide Student Identifier
- b. Social Science Information and Documentation
- c. Service Set Identifier
- d. Standard Simulation Interface Design

Check

QUIZ 15

They operate on a Wide Area Network, or WAN, providing internet service to many homes over a large geographic area.

Select one:

- a. ISP
- b. None of the choices
- c. DNS
- d. VPN

Check

It supports a maximum transfer rate of about 54 Megabits per second and is exclusively operates on 2.4 GHz.

Select one:

- a. Wireless N
- b. 802.11
- c. Wireless G
- d. 802.11B

Choose the letter that corresponds to your answer

What does ISP stands for?

Select one:

- a. Internet Service Provider
- b. International Server Providers
- c. International Service Provider
- d. Internetwork Server Provider

Choose the letter that corresponds to your answer

DSL Stands for

Select one:

- a. None of the choices
- b. Digital Subscriber Lines
- c. Digital Service Line
- d. Di-Server Lines

Check

It converts the signal into digital data that can be interpreted by a computer, game console, or other device.

Select one:

- a. Modem
- b. DSL
- c. VPN
- d. ISP

Check

It provides a dedicated connection to the modem and is typically the fastest way to connect to the internet from your modem.

Select one:

- a. DNS

- b. DSL Connection
- c. Ethernet Connection
- d. Wifi Connection

It manages the data traffic from these devices, allowing multiple devices to efficiently use the same network connection without excessive drops in speed.

Select one:

- a. Router
- b. Modem
- c. Satellite
- d. Switch

It is the arrangement of connections in a given network area.

Select one:

- a. Network Topology
- b. Network Mapping
- c. None of the choices
- d. Network Diagram

Check

It converts the digital signal from your modem into an analog radio signal.

Select one:

- a. Wireless Switch
- b. None of the choices
- c. Wireless Extender
- d. Wireless Router

Check

It is a standard that was established for wireless local area networks in 1997.

Select one:

- a. 802.12
- b. ISO 2002
- c. 802.11
- d. 801.12

It is the theoretical data-transfer rate possible for your connection

- d. Resources and supplier

The core of the data warehouse is the concept of ____ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ____ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ___ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ___ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ___ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ___ and _____

Select one:

- a. Facts and measure

- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ____ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ____ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ____ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ____ and _____

Select one:

- a. Facts and measure
- b. None of the choices

- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ____ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier

The core of the data warehouse is the concept of ____ and _____

Select one:

- a. Facts and measure
- b. None of the choices
- c. Data and retrieval
- d. Resources and supplier
