Critical Thinking Skill Test

Sarah does not have a job for so long. Then she decided to find ways to earn money. She tried to enroll in a freelancing online job school because she wants to be a freelancer. A freelancer works at home permanently doing an online job. **The problem is she could not concentrate because there were many distractions at home. So she finds other ways to earn money.** That is **working in a job onsite**. However, the problem is that **most jobs onsite need an applicant to be vaccinated**. Another issue is her **mom has negative beliefs about vaccination**. It is a reason why **she would not let her take the vaccination**. She does not have any money to do it on her own for example she is going to the hospital for vaccination because she does not know how to drive a car. She also does not have a fare. What is the solution?

-
- | | | |
|---------------|-------------------------------|--|
| Solution
A | Choose a freelance online job | Consequence : Distraction at home |
|---------------|-------------------------------|--|
-
- | | | |
|---------------|-------------|--|
| Solution
B | Work onsite | Consequence : Mom is not supported on vaccination |
|---------------|-------------|--|
-
- | | | |
|---------------|--|--|
| Solution
C | Ask a friend or make a friend to accompany Sarah to the hospital for vaccination | Consequence : Not letting know Mom that Sarah will be vaccinated and ask a friend to pay all the fare |
