

## **Ayaw mag-install ng kahit anong software?**

Make sure na naka turn off po yung Antivirus niyo. Do this by typing Virus on Start and clicking on Virus & Threats then paki off po yung Real-time Protection. If may iba pa po kayong antivirus, click niyo po yung tray bar (arrow na nakapoint katabi ng wifi icon) then pa right click po yung icon ng antivirus niyo and disable.

## **Hindi ma download yung mga .torrent links**

Pa download po muna kasi yung Bittorrent then install

## **Walang Extract na button kapag ni-right click**

Download muna WinRar then install

# **Hindi madownload yung mga nasa Google Drive at Mediafire na files**

Download and install niyo po muna yung Internet Download Manager then pakilagay sa extension ng Chrome.
