

Facilitating efficient execution of currency conversion
Providing liquidity

How it works

ECurrencySwaps provide low fee conversion for clients looking to convert their crypto based assets into liquid capital. There are three steps for a retail seller to complete a conversion:

1)	Calculate your conversion valuation using the next page. Ensure the amount you wish to convert doesn't exceed the \$100,000 transaction limit for retail sellers
2)	Proceed to make a payment to the Fund Wallet using the link provided below on the wallet of your choice. Add your email address, name & payment details (IBAN number; sort code / Paypal email / Western Union) along with desired currency in the payment reference
3)	Wait 5-7 Business Days for wire to selected payment method

Please note: Data of those who transact with us is not kept on record and is protected to maintain confidentiality. ECurrencySwaps will never request for personal information such as address or ID verification

Current Conversion Rate:

0.0001 BTC = \$0.85
0.001 BTC = \$9.00
0.01 BTC = \$92.50
0.1 BTC = \$935
1.0 BTC = \$9400
10.0 BTC = \$95,000

Maximum Transaction value : \$100,000

Payment Reference
<i>NAME (FIRST/LAST)</i>
<i>EMAIL ADDRESS</i>
<i>DESIRED PAYMENT METHOD & CURRENCY</i>
<i>BANK ACCOUNT NUMBER (IF APPLICABLE)</i>
<i>SORT CODE (IF APPLICABLE)</i>
<i>YOUR CONTACT DETAILS</i>

Payment Link: 1CBM1n5cJpVbHp6cDXMYrPb6EpCaJruhs1

RESPONSIBLE ASSET MANAGEMENT

ECurrencySwaps is a small team of product specialists and asset managers with expertise across various commodities within the global financial markets. We embrace our responsibility to manage risk and the impact our operations have on clients' liquidity, we manage our risk in three main ways:

We utilise sophisticated algorithmic based hedging strategies to manipulate our fund exposure in the face of volatile moves in crypto currency markets and protect the downside mid conversion.

The size of our fund is \$83.62M USD as of 01/05/2020. This amount of liquid capital relative to our client positions is reviewed continuously to ensure our ability to take on client risk mid conversion remains in tact during periods of both retail and institutional trade flow.

ECurrencySwaps remains diligent on the economics that underpin the valuation of crypto based assets and remains confident in deploying capital and changing approach on a data dependent basis.

WHAT OUR CLIENTS HAVE SAID RECENTLY

Adam Kostas 03/05/20. Import/Export Firm

“ Phenomenal execution, the speed of the execution along with the advisory division helped us to a 7% growth in earnings over 2 quarters in what was meant to be a difficult fiscal year. Will continue utilising offering. ”

Mr S Shah 17/02/20. Bitcoin Trader

“ Made a mistake on my form but after speaking to customer support they helped me get my payment, good experience. ”

Glyne Wheatly 14/01/20. Bitcoin Seller

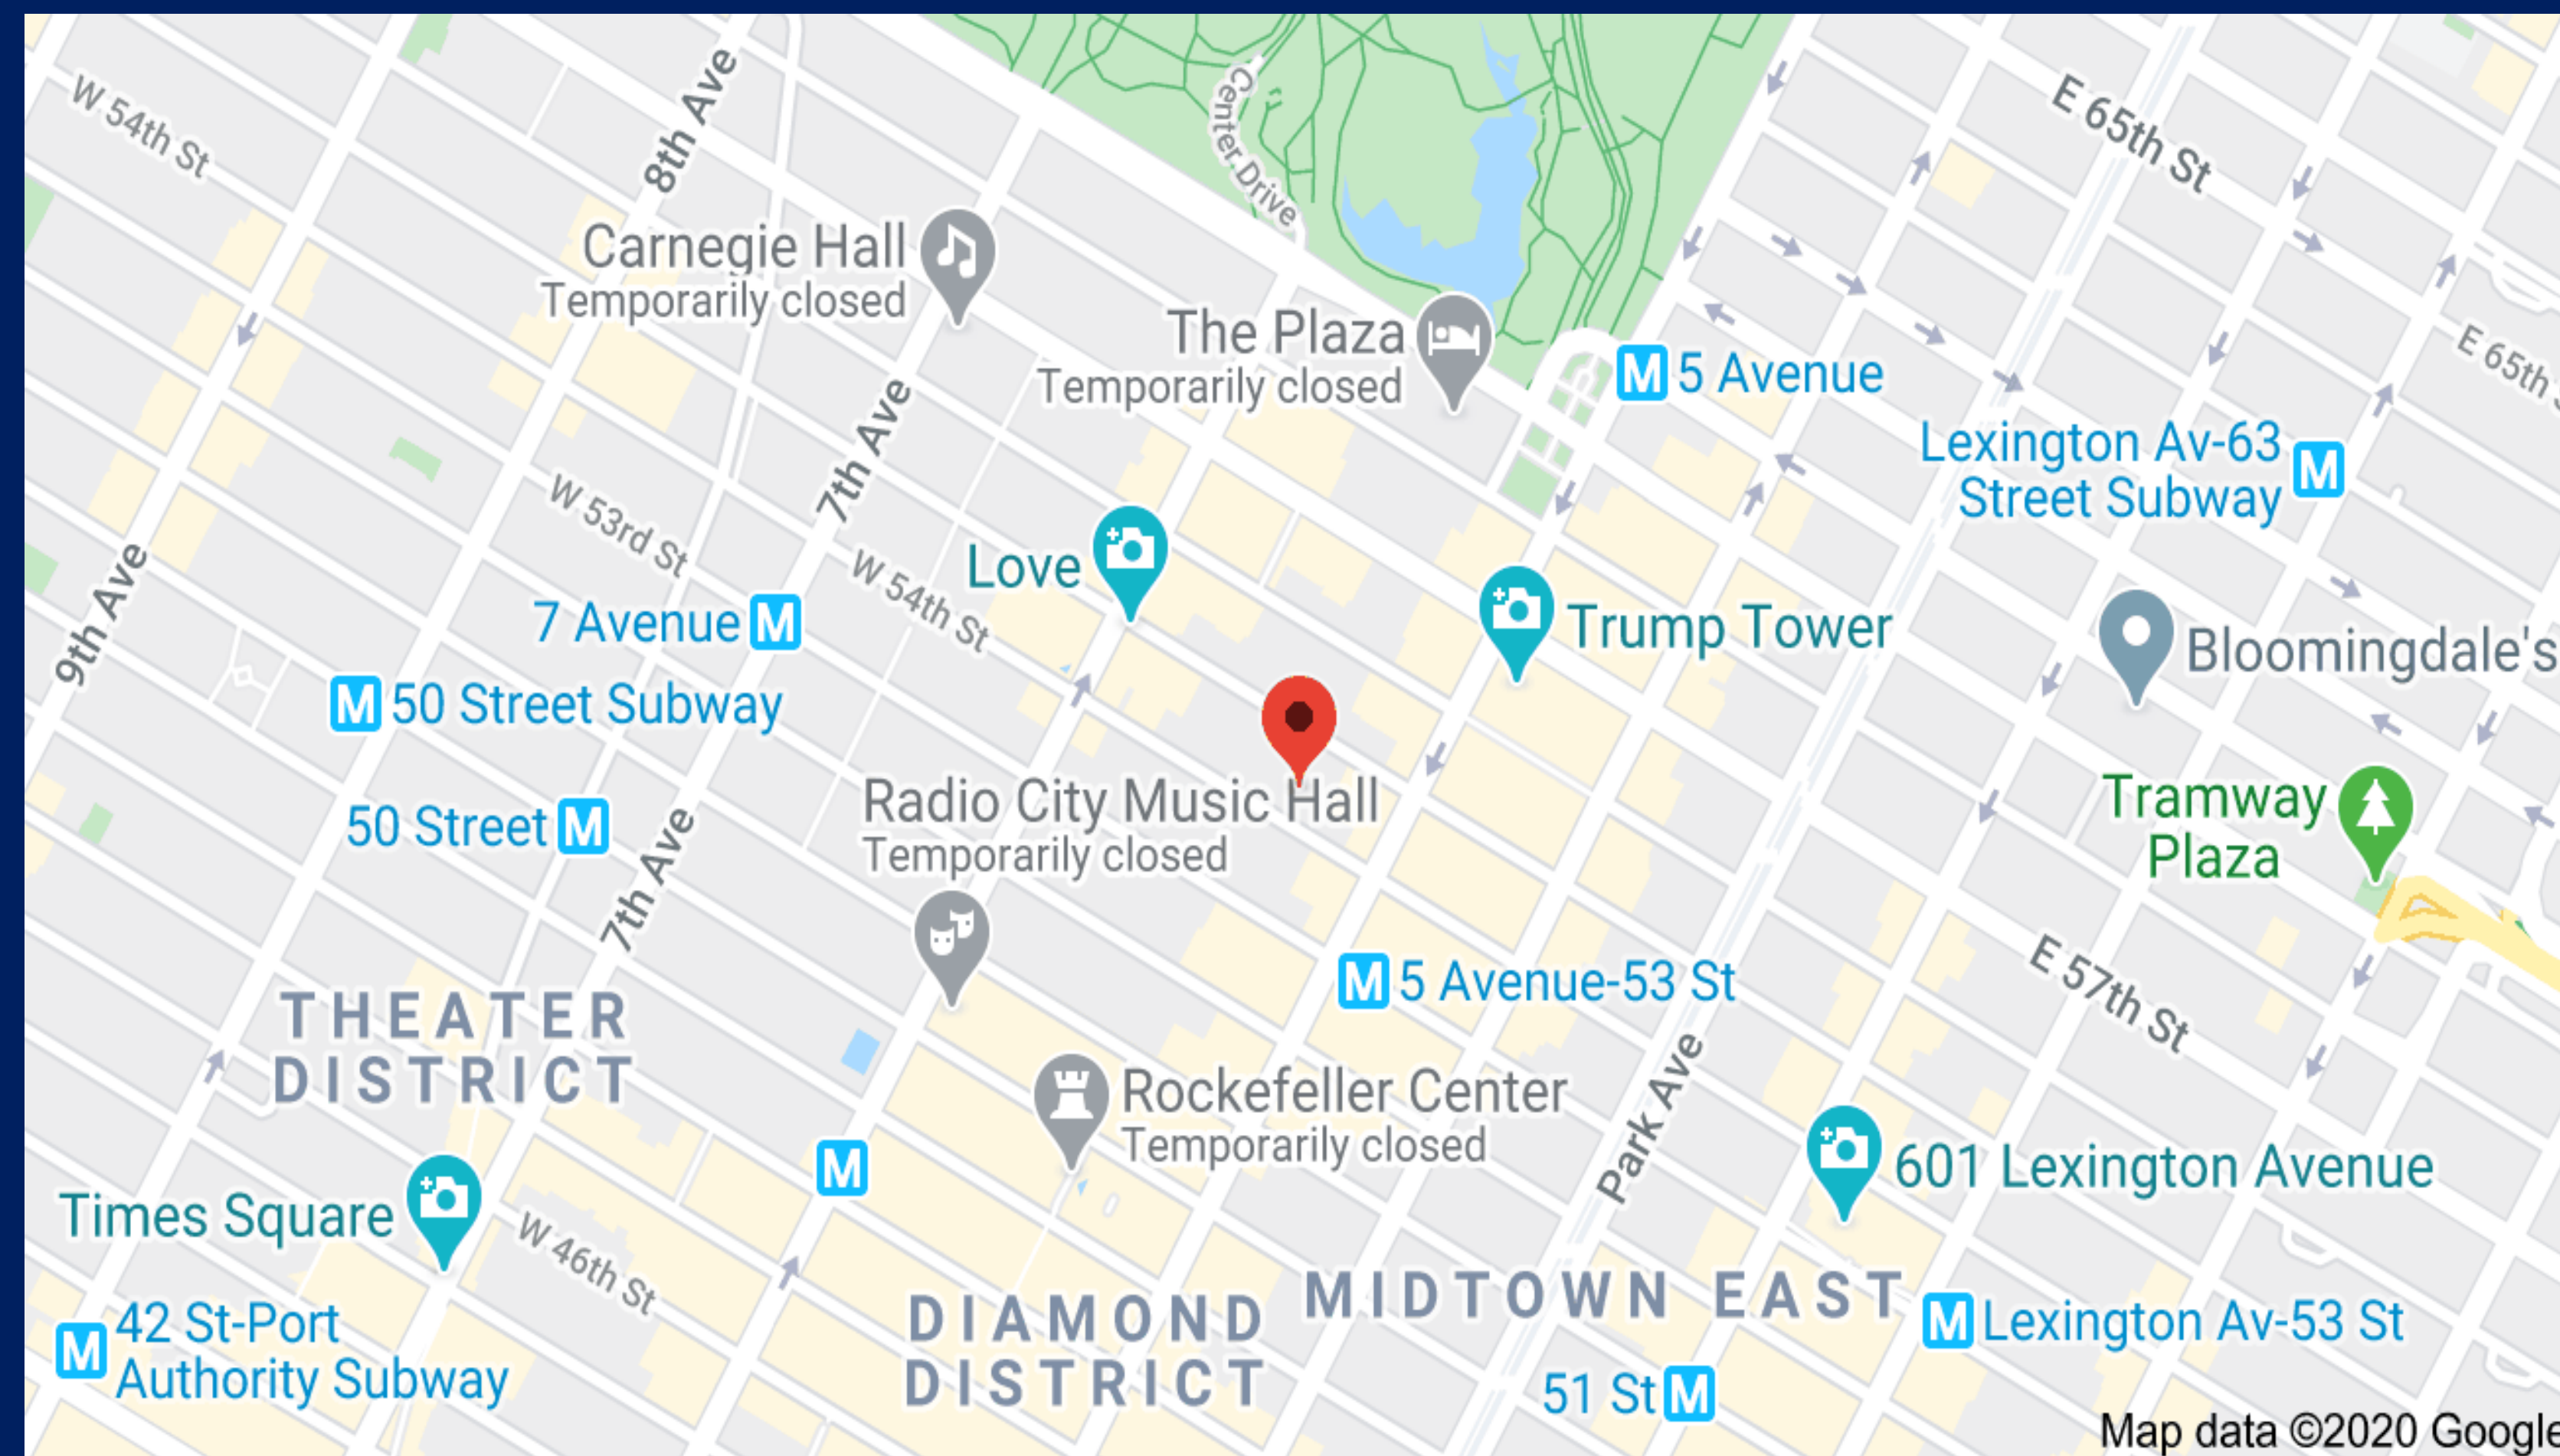

“ Good rates, wasn't the fastest swap I've done but I only swapped 0.0004 BTC so can't really complain, thanks for your help!”

Xi 27/12/19. Bitcoin Seller

“Good service and friendly staff. ”

ECurrencySwaps began trading in 2018 as a small group of market specialists with a common goal of disrupting the norm of the industry. In under 3 years we have closed over 6,000 transactions with a gross value of \$44M USD at a 86% Customer satisfaction and 98.7% initial request deal completion rate. We have refunded all voided orders. We look forward to growing our client base and establishing rapport with a broader target demographic to help further pioneer the challenge to industry heavyweights. Here from ECurrencySwaps we want to offer a huge thank you to those who have entrusted us with their transfers!
